### GOVERNMENT 5-STAR SAFETY RATINGS

Overall Vehicle Score

Not Rated

Based on the combined ratings of frontal, side and rollover.  
Should ONLY be compared to other vehicles of similar size and weight.

|                                                                                                                           |                      |           |
|---------------------------------------------------------------------------------------------------------------------------|----------------------|-----------|
| Frontal Crash                                                                                                             | Driver Passenger     | ★★★★★     |
| Based on the risk of injury in a frontal impact.<br>Should ONLY be compared to other vehicles of similar size and weight. |                      |           |
| Side Crash                                                                                                                | Front seat Rear seat | ★★★★★     |
| Based on the risk of injury in a side impact.                                                                             |                      |           |
| Rollover                                                                                                                  |                      | Not Rated |
| Based on the risk of rollover in a single-vehicle crash.                                                                  |                      |           |

Star ratings range from 1 to 5 stars (★★★★★) with 5 being the highest.

EPA DOT

Fuel Economy and Environment

Gasoline Vehicle

Fuel Economy

26 MPG

combined city/hwy

3.8 gallons per 100 miles

24 city

28 highway

Small SUVs range from 14 to 138 MPG.  
The best vehicle rates 146 MPGe.

You spend \$1,000 more in fuel costs over 5 years compared to the average new vehicle.

Annual fuel cost

\$1,900

Fuel Economy & Greenhouse Gas Rating (tailpipe only)

Smog Rating (tailpipe only)

This vehicle emits 347 grams CO<sub>2</sub> per mile. The best emits 0 grams per mile (tailpipe only). Producing and distributing fuel also creates emissions; learn more at fueleconomy.gov.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$3.30 per gallon. MPGe is miles per gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
